DIAMONDS

A Once In A Lifetime Opportunity

Your chance to obtain investor quality diamonds at prices based upon actual wholesale levels.

We are excited that we are able to present you an opportunity to acquire exceptionally high quality diamonds at fantastically realistic prices. Diamonds are the most precious of all gems and until now, the pitfalls of buying diamonds probably have left you wondering why and how you could consider this type of purchase. Historically, diamonds were purchased from retail jewelers who purchased the stones from so-called wholesalers. As an example of how the process works, a diamond wholesaler will sell an 1 carat stone to a jeweler for $3000.00; the jeweler purchases the stone on a memo basis or long term payout. Obviously there is a substantial cost in this form of credit and it is figured into the price of the stone. Now the jeweler displays the stone in his window after he has had it mounted. The price of the stone (assuming the normal markup) is set at $7500.00. You decide that this is the time to buy and you start asking questions.

What color is the stone? Answer: Fine white!

What about the clarity? Answer: Very Fine!

These answers tell you nothing. What you have is a stone that if sold tomorrow to the wholesaler (and this is what they all become once you walk from the store) is probably worth $2000.00.

How can you buy diamonds at the right price? Here is how: Superior has received a court order to sell the diamonds from the International Diamond Corporation Bankruptcy. These diamonds have all been graded by the most prestigious grading and authentication outfit in the world. All stones have been priced according to the actual New York wholesale market, as published each week, plus 15%. That's right. Your cost for these diamonds including the certificate of grade and authenticity is just 15% above the quoted New York wholesale price.

Now, you might ask about the quality. When we grade diamonds we talk about investment grade diamonds. These are the higher quality stones both in clarity and color. All of our stones are INVESTMENT QUALITY. We offer no "imperfectly" graded stones. We have no expensive color advertisements which cause our asking price to increase. This offer is appearing initially to our regular subscriber who we feel would like first chance to acquire one or more of thsese magnificent diamonds.

You may have questions regarding the mounting or other aspects of this offer. Or you may wish further information about the stones. We invite you to call and discuss your purchase with Mark Goldberg who has experience in diamond identification and grading. The diamond market has reached what we believe to be the bottom of its market. Recent weeks have seen this market begin to show some recovery from the lows that it has reached in recent years. Now is the time for you to cash in on a fine investment or better yet that beautiful diamond for someone special.

An explanation to diamond grading. The three primary determinations in placing a value of a diamond come from the Shape or Cut, Weight and Grade. Shape and weight are basically easy to determine. The grade of a stone is established from two primary factors. Clarity and Color. Diamonds range in grade from Flawless to Imperfect 3. Between the grades we use the following terminology. Internally Flawless, VVS1, VVS2, VS1, VS2, SI1, SI2, I1, I2, I3. The last term I3 known as Imperfect 3. For color we use the grading scale which travels from D to Z. The colors D, E and F are colorless. G through J are near colorless, while K through M are faint yellow. N through R represent a very light yellow while S through Z represent light yellow.

ANCIENT EGYPTIAN TERRA-COTTA BUSTS AND HEADS

From a cache found in Lower Egypt, near Alexandria, and dates around the Ptolemaic Period, 332-30 B.C.

Represented in this find are heads and busts of various Egyptian dieties as well as elaborate female headdresses.

Although these fragments were broken from larger pieces, each figure by itself is complete and quite suitable for mounting. No two figures are alike and the sizes range from 1 inch to several inches in height.

Bausch & Lomb Magnifiers now available

We are pleased to advise that we now stock several high quality Bausch & Lomb magnifiers. These are available for immediate delivery. We recommend two dirrerent types of magnifiers depending upon your requirements and these are available in different powers.

The Hastings Triplet Magnifiers are the finest magnifiers produced by Bausch & Lomb. They are highly corrected and use three separate lenses bonded together to form a compound lens. They provide a very sharp and clear image. The lense is protected from damage by a swing-away nickel plated case which serves as a handle.

We also offer the Coddington Magnifiers which stand next in performance to the Hastings. There is significant correction through the use of a single lens with a central groove diaphragm. This provides the viewer with a sharp clear crisp image. Like the Hastings, these lenses have a swing-away case for protection and use as a handle.

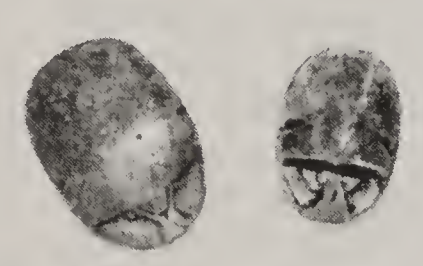
Ancient Egyptian SCARABS



hese are the most sacred Amulets of Ancient Egypt.
hey were linked with the Gold of Creation, Khepera.
rom earliest times the beetle was seen to roll a ball of manure

Ancient Egyptian AMULETS

These lovely little charms were used by Egyptians all over the empire. They were worn or carried by the living as powerful magic charms and burried with the dead as a post-mortem aid. These amulets of Ancient Egypt are predominately of the New Kingdom Period and date around 1500 B.C. - 600 B.C. These amulets are mostly of green or blue glazed faience and range in size from 15mm to over 35mm. Various golds and associated animals are represented as well as the Udjat Eye (Eye of Horus), Djed pillar, etc.
Amulets are very collectable and anyone with a taste for the miniature can truly appreciate these most satisfying examples of Ancient Egyptian art.

The 1929 Edison Coil Stamp is the only U.S. Commemorative ever to have been issued in coil form. Millions of these stamps were used by the electrical industry as advertising. Today this stamp is scarce AND GETTING SCARCER.

We have decided to dig deeply into our stock & sell our readers some of these coils that we put aside years ago for a rainy day. (We're still waiting for one here in sunny southern California.) Most of these stamps are Post Office fresh and in F/VF condition. Order promptly as there are limits even to Superior's outstanding inventory. (Please add 25% for Never Hinged)

Abe Franklin OR Ben Lincoln?

a special offer

In 1962, the Post Office Department issued a 5 cent Lincoln embossed envelope. This in itself was not unusual, but imagine everyone's surprise when some of these showed up with a superimposed impression of Franklin. The Franklin die was used last in 1958 for a 4 cent embossed envelope. Nobody knows how this error happened, but Scott catalogues this spectacular error (No. U544d) for $55.00. This value is much too low in view of its scarcity. We think these are worth a lot more than the listed catalogue valuation.

We managed to obtain a small quantity of these striking envelopes from an estate where they reposed since their discovery. When these are sold, it is likely that years will pass till they are offered again.

New Tomb Find Discovery...

ushabtis

(ū-shab-tēs)

These figurines were made in all sizes and known materials but came to be used on a large scale during the New Kingdom, 1567 - 1085 B.C. when faience (a glazed composition) became so popular.

The ancient Egyptians believed that in the after life the dead would be called upon for work in the fields, and these ushabti figurines were intended to act as the dead man's substitute.

The number of ushabtis buried with the deceased was 365, one for each day of the year, plus one "reis" (overseer) ushabti for every ten of the regular ushabtis.

These ushabtis display the typical mummiform figure holding a flail in each hand with the usual hieroglyphic inscription, an extract from Chapter VI of the "Book of the Dead," and is an order by the deceased to the ushabti to answer for him should he be called upon to cultivate the fields, repair the irrigation or perform similar work. These Late Dynastic examples have fine moulded detail with the inscription incised. They are made of greenish-blue (no two are exactly alike) glazed faience.

These fine Ushabtis were all found in one tomb find in Lower Egypt. We selected from this find only the choicest examples, all perfectly intact and in near pristine condition.

These 2500 year old servants in the "After World" are a classic blending of religious belief expressed through their art.

CUNEIFORM TABLETS

ONE OF THE EARLIEST EXAMPLES OF WRITING!

ONE OF THE OLDEST RECORDS OF BUSINESS TRANSACTIONS!

A UNIQUE PIECE OF ANCIENT HISTORY!

Two thousand years before the time of Jesus . . . about the time that the Patriarch Abraham left his home in Ur to establish Judaism in the Holy Land . . . "documents" were recorded by using cuneiform characters impressed in clay tablets in the land of Ur. These documents are each unique and give us a clear insight into life in the Middle East, four thousand years ago.

Superior is privileged to be the first to offer these genuine cuneiform tablets. They have been preserved, deciphered and authenticated by the experts in the Sterling Memorial Babylonian Collection Department at Yale University. Each cuneiform tablet is accompanied by a letter from Yale with a full description of the characters found on that particular tablet.

Because we think you should not miss this unique opportunity, we will permit layaway plans of $65 down and $50 per month. Or, if payment is made in full you can receive your cuneiform tablet immediately.

But before you make up your mind, read about the tremendous historical significance of these 4,000 year old tablets:

THE CITY

In the book of Genesis (11:31), it is written that "Terah took Abram, his son, and Lot, the son of Haren, his son's son, and Sarai, his daughter-in-law, his son Abram's wife; and they went forth with them from Ur of the Chaldees to go into the land of Canaan."

Having access by river and canal to the Persian Gulf, Ur was the natural headquarters of foreign trade. According to the Encyclopedia Brittanica, "many hundreds of clay tablets show how foreign trade was organized."

THE HISTORICAL SIGNIFICANCE

In the opinion of some great thinkers, the invention of writing was the real beginning of civilization. It is so fundamental that one is astonished that it appeared so late (c. 3,000 BC) in the development of mankind.

One of the earliest forms of writing was "cuneiform;" its name derives from the fact that it was written by pressing wedge-shaped marks into clay. Originally pictographic in nature, the symbols soon lost any resemblance to the objects they were originally supposed to represent. Cuneiform writing was passed from the Sumerians to the Babylonians and Assyrians (e.g. at Ur) and on to the Hittites, the Persians, and other peoples.

THE TABLETS

The tablets, which we now offer, all document business transactions, and they range in length from about 1 to 2 inches. Each one has a unique inscription; we supply the summary made by the Yale scholars. These tablets document the delivery of grain. . . receipt of slave girls. . . record of grain rations . . . deliveries of lambs . . . record of workmen . . . delivery of gazelle . . . receipt of reed baskets . . . expenditure of beer . . . record of wood, reed and bitumen . . . deliveries of baskets of fish . . . receipt of silver . . . oil allotments . . . account of cereals . . . receipt of rent . . . and so on.

In addition to the inscription summary, many tablets are dated to the year, month and sometimes the day, since this information is also contained in the inscription. Actual dated examples include "the third month, the 26th day in the fourth year of Amar-Sin's reign" (i.e. 2043 BC), and "the seventh month in the third year of Shu-Sin's reign" (i.e. 2034 BC).

RARE OPPORTUNITY

We don't know of anywhere in the world you can buy similar ancient tablets in excellent condition, authenticated and interpreted by scholars . . . and certainly, should you locate one, it is most unlikely that it would be priced so moderately. Just $165.00. We have seen, on rare occasions, similar cuneiform tablets offered for $350 to $500!

Nothing you own or can own can be of such historical significance at such a low cost as these 4,000 year old cuneiform tablets from Ur, the home of the Biblical Patriarchs. An early order is recommended, since we have only a very limited supply! Telephone reservations will be accepted.

Each tablet will be accompanied by a certificate of authenticity provided by the BABYLONIA COLLECTION YALE UNIVERSITY and translated. This certificate is suitable for display or framing!

1984 Double Die Obverse Lincoln Cents

We are pleased to notify our readers of this newly discovered error. Examine the ear, neck and beard and you will see the double image of these areas. While it is impossible to determine the number of coins struck, it appears that the mintage was quite low due to the significant demand for the coins and the general unavailability of these. All coins are guaranteed genuine and price is subject to change according to market conditions.

JADE JADE JADE JADE JADE

Jade is one of the most fascinating of the gemstones. Its history dates back to early times when it was highly prized and one of the most popular gemstones. Today it is still considered rare and often used in the manufacture of fine jewelry. It is most often seen in rings and while some rare types sell for many thousands of dollars, collectors of jade are found searching far and near for the exact shade of deep green that is considered the rarest type.

We are pleased to announce that we have been authorized to sell a small quantity of beautifully polished genuine Jade from the inventory of a major bankrupt firm. We have approximately 150 pieces which range in color from green to white and also include various other tones of yellow, pink and grey. We see that normally these beautiful gemstones sell for approximately $75.00 each and we must admit that if you have ever considered owning a beautiful piece of jade jewelry, that now is the time. Our price is based on the entire lot selling out immediately so we suggest a prompt phone call. Act now!

Olympic Coins Reach Tremendous Sales Levels

Sales of Olympic coins in Los Angeles during and after the Olympics reached unbelievable levels according to store statistics from Superior Stamp & Coin. Our biggest problem was finding a supply of coins which had to come from three major distributors. While we have just seen an incredible amount of demand from everyone our supplies appear to be somewhat short in certain areas. Large orders have been placed and these supplies are expected in just before you read this column to insure an adequate supply. The best coins to consider for investment potential are all of the Uncirculated pieces in gold and silver and the P, D, S Proof gold pieces. No matter what your selection it is perhaps the most popular coin in history and one of the best looking series produced by the U.S.A in many years. Here are some of the mintage figures: Special prices are also available for Money Talks readers.

BUREAU OF ENGRAVING AND PRINTING
WASHINGTON, D.C.
This souvenir sheet consists of vignettes from three United States postage stamps devoted to Hawaiian subjects. Depicted on the left is an allegorical representation of Hawaii's admission as the fiftieth state of the Union, taken from the 7¢ Hawaii Statehood Commemorative Air Mail Issue of 1959. The central subject pictures Honolulu's majestic statue of King Kamehameha I, renowned for first placing the islands under a single sovereignty and was adapted from the Hawaii stamp of the Territorial Series issued in 1937. On the right is a view of Diamond Head, the famous Honolulu landmark, symbolic of the natural beauty and tranquility of all the islands. This vignette originally appeared on the 80¢ Air Mail stamp, Series of 1952.

1964 TOKYO OLYMPIC LABELS

Collection of 6 sheets of 20 stamps all with the same designs but printed in salmon, blue, yellow, violet, green and orange.

These sheets are quite scarce as they were never actually issued. After they were printed the Japanese Government decided that since the designer wasn't Japanese (he was an American) it wouldn't look right for these to be official labels. The contract therefore got cancelled.

These sheets are quite attractive. We feel you can't help but like them.

Special – Set of 6 Sheets – $9.95 – **ORDER NO. 05-0056**
Per 10 Sheets – $75.00 – **ORDER NO. 05-0057**

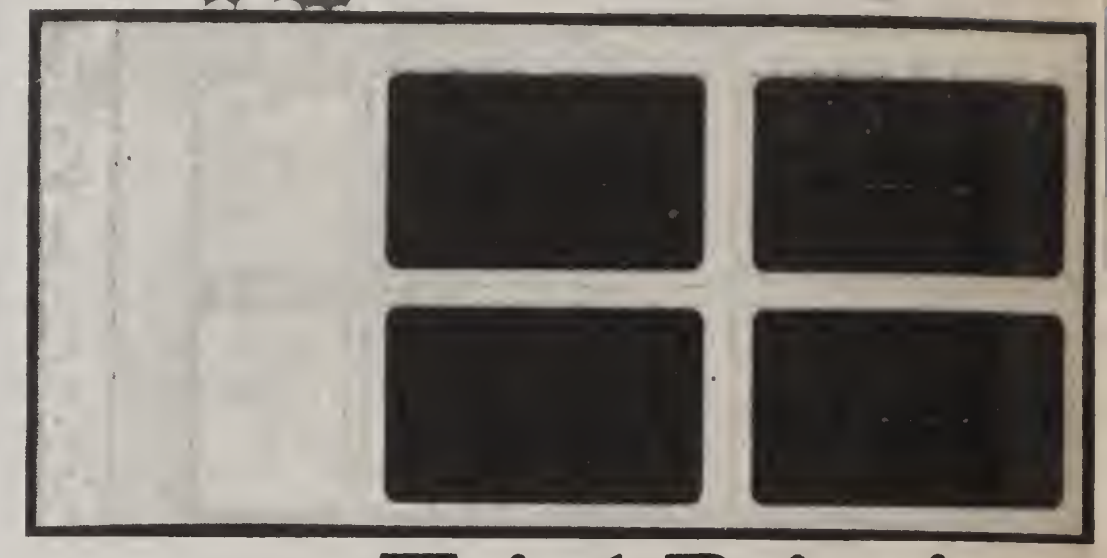
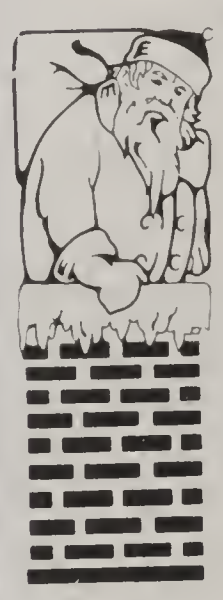
1974 Self-Stick Christmas Stamp



Trial Printing



What we have here essentially is black ink applied to the actual stamp paper of the self-stick Christmas stamp. These "stamps" are fully gummed and the sheets are complete w/ selvege labels just as issued. They were created as a test by the company who made these stamps to test the machine used to remove the strips of paper between the stamps. We are certain that if these ever appear in an auction the price will be many times higher than offered here. All are offered on a first come, first served basis so place your order promptly. Naturally all stamps are in fine, mint, never hinged condition.

UNITED NATIONS at FACE VALUE

Seems impossible doesn't it! Well we just purchased what must be the largest holding of UN stamps other than that of the UN Post Office. Why we did this is anyone's guess because now we don't have room to store all of these stamps.

So, help us out!

We will sell $25.00 face value packets of all mint UN stamps. Each packet will contain - singles, blocks, Souvenir Sheets of different 1957-1974 issues. These are all valid for postage at the UN in NY or - can be added to your collection (we won't tell on you). Order as many units as you like. There is no limit.

$25.00 UN Postage Units (plus $1.50 handling when only ordering these units)
